

breaking point. Liability premiums are keeping us from doing what we love or forcing us to leave our homes.”

We have got a problem in America that we must deal with. And this is not only a local problem, but because lawsuits and premium increases and preventative medicine drive up the cost in Medicaid and Medicare and veterans health benefits, medical liability is a national issue that requires a national solution.

Every person with a legitimate claim deserves a day in court. Junk lawsuits make it hard to get into court. And bad doctors must be held to account. I’m confident that’s what the Illinois Medical Society believes as well. Yet, for the sake of affordable and available health care, we need a cap on non-economic damages, of \$250,000. Punitive damages should be limited to reasonable limits.

This health care system needs liability reform now. No one has ever been healed by a frivolous lawsuit. This past March, the House of Representatives passed medical liability reform. The Senate has not acted. I urge all of you to talk to your Senators. I know one of them is okay.

You can make a difference. Not only should the people of Illinois who care about medical liability reform get involved, people all over this country—if you want a health care system that is available and affordable—need to get involved. You need to let your Senators know how you feel on this key issue.

I’ll be right there with you getting involved. I want to sign this into law. I want to sign Medicare reform into law, and I want to sign medical liability reform into law, so that we can look the American people in the eye and say, “We have done our job; we saw a problem and we fixed it.”

There are challenges in the health care system. We understand that in Washington. And we can answer those challenges with practical, sensible, compassionate reforms. That is the charge before us, and that is the charge we must keep on behalf of the American people.

May God bless your work, and may God continue to bless America.

### **Terrorist Bombing in Jerusalem**

Today there was a terrible bombing in Jerusalem. I send my heartfelt condolences to those who suffered and lost life.

It is clear there are people in the Middle East who hate peace, people who want to kill in order to make sure that the desires of Israel to live in secure and peace don’t happen, who kill to make sure the desires of the Prime Minister of the Palestinian Authority and others of a peaceful state living side by side with Israel do not happen.

To the people in the world who want to see peace in the Middle East, I strongly urge all of you to fight off terror, to cut off money to organizations such as Hamas, to isolate those who hate so much that they’re willing to kill to stop peace from going forward. I strongly condemn the killings, and I urge and call upon all of the free world, nations which love peace, to not only condemn the killings but to use every ounce of their power to prevent them from happening in the future.

Thank you.

NOTE: The President spoke at 11:40 a.m. in Grant Park. In his remarks, he referred to Prime Minister Mahmoud Abbas (Abu Mazen) of the Palestinian Authority. A tape was not available for verification of the content of these remarks.
